APPLIED MATHEMATICS AND MECHANICS

The Soviet Journal of Applied Mathematics and Mechanics is
translated cover to cover and has been published by Pergamon Press since 1958

Translation Editors:

Dr. G. HERRMANN, Stanford University, U.S.A.

R. C. GLASS, The City University, London, U.K.

Translators Panel:

D. E. BROWN✤, M. D. FRIEDMAN, R. C. GLASS, D. LOUVISH, Z. LERMAN
L. KINASZ, H. TURNER, E. L. SHORT, T. ZASTAWNIAK

Six issues/annum or corresponding to the number of original Russian issues per annum. Approximately 800 English pages.

Annual institutional subscription rate 1991 (English translation of Vol. 54): DM1518.00 (including postage and insurance). Two-year institutional rate (1991/92): DM2884.20. Subscription rates for Japan include despatch by air and prices are available on application. Prices are subject to change without notice.

All subscription enquiries from customers in North America should be sent to: Pergamon Press Inc., Maxwell House, Fairview Park, Elmsford, NY 10523, U.S.A., and for the remainder of the world to: Pergamon Press plc, Headington Hill Hall, Oxford OX3 0BW, U.K.

Microform Subscriptions and Back Issues

Back issues of all previously published volumes, in both hard copy and on microform, are available direct from Pergamon Press offices.

VOLUME 53 1989 NUMBER 1

CONTENTS

S. R. KARIMOV and A. G. SOKOL'SKII: A method for continuing families of periodic solutions of Lagrangian systems 1
S. V. STANCHENKO: Non-holonomic Chaplygin systems 11
V. A. KONOPLEV: The construction of composite models for the mechanics of a support of a set of rigid bodies 18
V. S. AFRAIMOVICH and L. P. VOZOVOI: The mechanism of the hard appearance of a two-frequency oscillation mode in the case of Andronov–Hopf reverse bifurcation 24
S. A. MIRER, S. A. ODINTSOVA and V. A. SARYCHEV: Limiting stationary modes of a rigid body on a string suspension 29
N. N. DANILOV: Solution of the problem of dynamic stability in a cooperative differential game with side payments 34
V. A. BAIDOSOV: A differential game with a fuzzy target set and fuzzy starting positions 46
S. T. SIMAKOV: On the small vibrations of a stratified capillary liquid 50
A. V. SHVEDOV: Aerodynamic characteristics of volume rod constructions in stationary free-molecular flow 57
A. M. GRISHIN and E. E. ZELENSKII: The effect of multicomponent diffusion on the stability of laminar flames 62
L. V. PETUKHOV: Optimal elastic domains of maximum stiffness 69
S. B. VIGDERGAUZ: Piecewise-homogeneous plates of extremal stiffness 76
I. M. DOLGOVA and YU. A. MEL'NIKOV: Green's matrix of the plane problem of elasticity theory for an orthotropic strip 81
E. V. KOVALENKO: Some approximate methods of solving integral equations of mixed problems 85
A. YU. EVKIN: A new approach to the asymptotic integration of the equations of shallow convex shell theory in the post-critical stage 92
I. A. LUBYAGIN and M. I. CHEBAKOV: On the asymptotic method of "large λ" 97
N. M. BORODACHEV: On the variational formula and its application to contact problems of elasticity theory 102
E. L. NAKHMEIN and B. M. NULLER: On the subsonic stationary motion of stamps and flexible cover-plates on the boundary of an elastic half-plane and a composite plane 108
N. KH. ARUTYUNYAN and A. V. MANZHIROV: Contact problems of the mechanics of bodies with accretion 117
L. A. KIPNIS and G. P. CHEREPANOV: Application of the principle of choice to the problem of the initial development of slip lines from a corner point 128
V. V. KOZLOV: On a Kelvin problem 133
A. O. IGNAT'YEV: On retaining the property of uniform asymptotic stability with respect to some of the variables 136
L. E. SHAIKHET: A new method of solving the optimal control problem for a partially observable stochastic Volterra process 140

VOLUME 53 1989 NUMBER 2

CONTENTS

R. F. NAGAYEV and V. N. PILIPCHUK: Non-linear dynamics of a conservative system degenerating into a system with a singular set 145
S. B. KUKSIN: An averaging theorem for distributed conservative systems and its application to Von Karman's equations 150
N. V. BANICHUK, A. S. BRATUS and A. D. MYSHKIS: Stabilizing and destabilizing effects in non-conservative systems 158
S. A. DOVBYSH: Some new dynamical effects in the perturbed Euler–Poinsot problem, due to splitting of separatrices 165
V. V. BELETSKII and M. D. GOLUBITSKAYA: Planar standing and marking-time regimes of a bipedal walking device 173
V. B. KOLMANOVSKII and N. I. KOROLEVA: Optimal control of some bilinear systems with aftereffect 183
A. M. KOVALEV: Support and calibration functions of reachability regions of linear controlled systems 189
YU. N. RESHETNYAK: Summation of ellipsoids in the guaranteed estimation problem 193
S. V. MELESHKO: On non-isentropic stationary spatial and planar non-stationary double-waves 198
N. A. GUMEROV: The weak non-linear fluctuations in the radius of a condensed drop in an acoustic field 203
A. E. REDNIKOV and YU. S. RYAZANTSEV: On the thermocapillary motion of a drop with homogeneous internal heat evolution 212
I. N. KANDOBA: An algorithm for shape optimization in elliptic systems 217
M. A. GRINFEL'D and M. P. LAZAREV: Stability of heterogeneous systems with coherent interphase boundaries 222
A. G. KULIKOVSKII and L. A. PEKUROVSKAYA: On fronts of strong and weak discontinuities in solutions of the equations of different-modulus elasticity theory 230
V. V. KALINCHUK, I. V. LYSENKO and I. B. POLYAKOVA: Singularities of the interaction of a vibrating stamp with an inhomogeneous heavy base 235
A. G. BYKOVTSEV: The refraction of a pure shear shock wave into an elastic–plastic half-space 242
O. YU. DINARIYEV and A. B. MOSOLOV: On the form of the plasticity functional in endochronic inelasticity theories 250
YU. N. GORDEYEV: Selfsimilar problems of star-shaped crack development under the action of a cleaving gas flow 261
V. P. EVTEYEV and E. M. MUKHAMADIYEV: Periodic solutions of the elliptical three-body problem near a triangular libration point 266
R. N. BAKHTIZIN: Group-theoretical analysis of the equations of motion of a thixotropic fluid 268
H. I. BURDE: On the motion of fluid near a stretching circular cylinder 271
A. V. KONONOV: On the problem of the collapse of cavitational voids 273
T. G. RUMYANTSEVA, M. G. SELEZNEV and M. V. CHEPIL: A dynamic contact problem for a bilayered half-space with a cavity 276

VOLUME 53 1989 NUMBER 3

CONTENTS

A. I. GRUDEV, A. YU. ISHLINSKII and F. L. CHERNOUS'KO: On the motion of a particle over a rough rotating plane 281
L. M. MARKHASHOV: On relativistic analogues of particle dynamics 289
B. S. CHEKIN: The entry of a wedge into an incompressible fluid 300
A. L. GONOR and V. B. PORUCHIKOV: The penetration of star-shaped bodies into a compressible fluid 308
A. N. KRAIKO and S. A. MUNIN: On sonic flows impinging on wedge-shaped obstructions 315
M. A. GOL'DSHTIK and V. N. SHTERN: Analysis of the paradox of the interaction of a vortex filament with a plane 319
V. A. BATISHCHEV: The asymptotic form of the unevenly heated free boundary of a capillary fluid at large Marangoni numbers 325
YU. P. GUPALO, A. E. REDNIKOV and YU. S. RYAZANTSEV: Thermocapillary drift of a drop in the case when the surface tension depends non-linearly on the temperature 332
E. V. TEODOROVICH: A hydrodynamic generalization of Ward's identity 340
A. P. KURYACHII: The stability of Couette–Taylor electrohydrodynamic flow 345
E. N. BERESLAVSKII: The forcing out of saline water by fresh water during filtration from a mole irrigator 350
M. M. ALIMOV and E. V. SKVORTSOV: Estimates of the flow rate characteristics in the theory of filtration and heat conduction 355
O. YU. DINARIYEV and O. V. NIKOLAYEV: Relaxation phenomena in saturated porous media. Linear theory 362
L. D. AKULENKO and S. A. MIKHAILOV: Analysis of controlled rotations of an elastic rod around an arbitrary axis 368
D. YA. BARDZOKAS, V. Z. PARTON and P. S. THEOCARIS: Integral equations of elasticity theory for a multiconnected domain with inclusions 375
T. A. PRIBYLEVA: Continual-discrete modelling of a multicomponent laminar body by using a system of two-dimensional continua 384
YA. A. KAMENYARZH: Conditions on surfaces of discontinuity in a rigid-plastic analysis 392
V. V. STRYGIN: On asymptotic integration of the equations of motion of mechanical systems subjected to rapidly oscillating forces 401
N. N. SLEZKIN: On the Mitchell problem of the motion of a lubricant in a layer bounded by a moving plane and a fixed plate of finite sizes 403
O. R. KOZYREV and YU. A. STEPANYANTS: Estimation of growing perturbation parameters in shear flows of a viscous stratified fluid 406
M. A. SUMBATYAN and V. YA. SYCHAVA: The passage of a non-stationary pulse through a layer with damping 409

VOLUME 53 1989 NUMBER 4

CONTENTS

I. I. KOSENKO: The construction of phase paths of a Hamiltonian system in the neighbourhood of an equilibrium 411
A. P. IVANOV: The preservation of the stability of a mechanical system when a non-retaining constraint is weakened 417
G. M. VINNER: Asymptotic motions of mechanical systems with non-holonomic constraints 424
M. B. EPENDIYEV: An asymptotic analysis of the forced oscillations in systems with slowly varying parameters 429
F. D. BAIRAMOV and T. K. SIRAZETDINOV: The condition for sign-definiteness of integral quadratic forms and the stability of distributed-parameter systems 439
A. V. STEPANOV: The use of high-order forms in stability analysis 447
R. S. SULIKASHVILI: On the stationary motions in a Newtonian field of force of a body that admits of regular polyhedron symmetry groups 452
E. M. POTAPENKO: Stability of controllable elastic distributed systems 457
L. D. AKULENKO: Constructive control of the motion of oscillating systems with discrete and distributed parameters 464
V. A. VLADIMIROV and V. V. RUMYANTSEV: Inversion of Lagrange's theorem for a rigid body with a cavity containing an ideal liquid 474
M. A. GOL'DSHTIK and V. N. SHTERN: A turbulent vortical dynamo 477
V. V. KLIMOV and V. L. PROZOROVSKII: The method of contour dynamics for axisymmetric vortical structures with spatially bounded vorticity 487
I. SH. AKHATOV: Shear instability in stratified viscoelastic and gas–liquid media 491
S. A. VAKULENKO: A variational principle for non-linear concentrated waves 495
I. S. ZORIN and S. A. NAZAROV: Edge effect in the bending of a thin three-dimensional plate 500
A. A. YEVTUSHENKO and V. I. PAUK: Influence of material inhomogeneities on the stress distribution near a thin elastic inclusion 508
A. L. RADOVINSKII: General theorems of the electromechanics of thin elastic shells 514
V. M. ALEKSANDROV and I. I. KUDISH: Asymptotic methods in the Griffith problem 520
V. E. SADYKHOV: Stresses in a bielastic layer with a shear edge crack 526
O. V. TITOV: On the zones of influence and dependence for a model system of equations in the theory of the three-dimensional boundary layer 533
N. A. BELOV: Exact solutions and numerical analysis of the problem of an intense explosion in certain ideal compressible media 537
V. A. MISYURA: On a class of elasticity theory problems with non-classical boundary conditions 542
A. N. GUZ and YU. N. LAPUSTA: On a method of investigating fibre stability in an elastic semi-infinite matrix near a free surface 546
D. B. BALASHOV and YA. A. KAMENYARZH: On simple waves in an elastic-ideal plastic medium 551

VOLUME 53 1989 NUMBER 5

CONTENTS

V. I. KALENOVA, V. M. MOROZOV and M. A. SALMINA: The problem of stabilizing the steady motions of systems with cyclic coordinates 555
V. I. GULYAYEV, A. L. ZUBRITSKAYA and V. L. KOSHKIN: A universal sequence of period-doubling bifurcations of the forced oscillations of a pendulum 561
A. D. MOROZOV: Limit cycles and chaos in equations of the pendulum type 565
S. T. ZAVALISHCHIN: A supplement to Lawden's theory 572
R. M. BULATOVICH: Analytic solutions of the Hamilton–Jacobi equation of an irreversible system in the neighbourhood of a non-degenerate potential energy maximum 578
S. V. PAN'KO: A representation of the solutions of the generalized Cauchy–Riemann equations and its applications 581
E. K. LAVROVSKII and A. M. FORMAL'SKII: Stabilization of a given position of an elastic rod 590
S. N. BESHENKOV: Forced oscillations and the radiation of sound by a circular plate interacting with a fluid 596
V. A. LOMAZOV: The diagnostic problem for elastic semibounded bodies 601
A. M. TSALIK: The method of projection and decomposition of analytical functions in boundary-value problems of elasticity theory 607
D. R. ATADZHANOV, A. G. SARKISYAN and A. I. TSEITLIN: Green's function of the stationary dynamic problem for a viscoelastic half-space 614
T. S. KAGADII and A. V. PAVLENKO: The axisymmetric problem of transferring a load to a viscoelastic orthotropic body by means of an elastic rod 619
V. V. ZOZULYA: The combined problem of thermoelastic contact between two plates through a heat conducting layer 622
S. K. KANAUN and L. T. KUDRYAVTSEVA: Elastic and thermoelastic characteristics of composites reinforced with unidirectional fibre layers 628
V. I. MOSSAKOVSKII and E. V. POSHIVALOVA: The pressure exerted by a stamp of circular cross-section on an elastic half-space 636
L. G. DOBORDZHGINIDZE: The problem of the pressure of a rigid stamp on the boundary of a non-linearly elastic half-plane under finite deformations 639
V. N. LUKERCHENKO: The construction of the dissipative plastic flow function on the basis of microscopic representations 643
O. O. BARABANOV: On limit surface loads in the theory of plasticity 649
V. B. ZELENTSOV and L. M. FILIPPOVA: A crack on the interfacial boundary of prestressed elastic media 654
A. A. VAKULENKO and V. YA. KREINOVICH: Physico-geometric investigation of brittle fracture during creep 660
A. I. OVSEYEVICH: Complete controllability of linear dynamic systems 665
A. V. DOMANSKII: Some properties of the generalized solutions of one-dimensional two-phase porous flow problems 669
S. A. KULIYEV: The solution of problems of elasticity theory by the method of analytic functions 672
K. S. PUSTOVOIT, I. E. TROYANOVSKII and I. N. SHARDAKOV: An approach to solving three-dimensional dynamic problems of the theory of elasticity and visco-elasticity for bodies of complex shape 677
A. I. BUNIMOVICH and G. E. YAKUNINA: On the shape of a minimum resistance solid of rotation penetrating into plastically compressible media without detachment 680

VOLUME 53 1989 NUMBER 6

CONTENTS

A. P. MARKEYEV: Qualitative analysis of systems with an ideal non-conservative constraint 685
A. Z. BRYUM: Orbital stability analysis using first integrals 689
A. I. KALININ: An algorithm for the asymptotic solution of a singularly perturbed linear time-optimal control problem 695
V. A. KOLOSOV: Stabilization of weakly linear systems 703
V. V. TOKARCHUK: The Barnett approximation in the theory of hydrodynamic fluctuations 708
A. B. ROSHCHIN and L. M. TRUSKINOVSKII: Model of a weakly non-local relaxing compressible medium 715
A. G. EGOROV: Elastic wave damping in thin-layered saturated porous media 721
S. A. GABOV, A. G. SVESHNIKOV and A. K. SHATOV: Dispersion of internal waves by an obstacle floating on the boundary separating two liquids 727
R. V. GOL'DSHTEIN and A. V. MARCHENKO: The diffraction of plane gravitational waves by the edge of an ice cover 731
A. P. PODDUBNYAK: High-frequency asymptotics of acoustic pressure for bounded wave beam scattering by an elastic sphere 736
M. A. MIRONOV and I. A. SAZONOV: The problem of waves of discrete spectrum in shear flows with sign-constant curvature of the profile 743
V. N. LIKHACHEV: Focusing of shock waves in a highly viscous fluid 750
I. G. BRYKINA, V. V. RUSAKOV and V. G. SHCHERBAK: Approximate formulas for heat flows towards an ideally catalytic surface near a plane of symmetry 756
G. A. TIRSKII and S. V. UTYUZHNIKOV: A comparison of the models of a thin and a complete viscous shock layer in the problem of the supersonic flow of a viscous gas past blunt cones 762
V. M. AGRANAT and D. A. GUBIN: The effect of conjugated and radiant heat exchange on the process of non-stationary combustion of the products of intense gasification of a solid in a stream of gas 767
I. V. SIMONOV: Asymptotic analysis of three-dimensional dynamic equations for thin two-layer elastic plates 772
A. S. BYKOVTSEV and D. B. KRAMAROVSKII: Non-stationary supersonic motion of a complex discontinuity 779
I. G. TEREGULOV: Moment theory of electromagnetic effects in anisotropic solids 786
R. I. MOKRIK and I. V. OLIYARNIK: Use of an orthoexponential transformation in the study of the non-stationary equations of thermoelasticity and thermoviscoelasticity 791
V. D. POTAPOV: On the stability of rods for stochastic excitations 797
N. KH. ARUTYUNYAN and YU. N. RADAYEV: Elastoplastic torsion of a cylindrical rod for finite deformations 804
YU. I. NYASHIN and S. A. CHERNOPAZOV: On the formulation of the contact problem of elastic plasticity 811
L. A. KIPNIS: Slip lines at the corner of the interfacial boundary of different media 815
LYAO SYAOSIN: Stability of motion of linear systems relative to some of the variables 820
R. A. BRAZHE: Effect of viscosity on the conditions for the formation of centrifugal solitons in the translational–rotational flow of a liquid 822
A. O. VATUL'YAN and V. L. KUBLIKOV: On boundary integral equations in electroelasticity 824
F. M. ERLIKHMAN: Two formulations of an elasto-plastic problem 828
E. I. SHIFRIN: Isoperimetric estimates of the solutions of a class of pseudodifferential equations and their application to crack problems 831
